Below is a new link for parents to access their players information and self update their personal information (ie. address, telephone, email, etc.) changes. In addition, parents can also look up their player's team coach information:

[Player Information Update and Coach Information Link](#)

*Please note that if there is a number in the "Assigned Team Name" column but no coach information under the "Coach" column, the player has been placed on a team but a coach has not yet been assigned to the team. If both columns are blank, the player has not yet been placed on a team.
