

The Rush Soccer Club has a program set up called the Tutor Program. It simply means anyone in the Rush has the opportunity to train with any team in the Rush. One of the main components to becoming a great player is quite simple, hard work. Hard work equates to hundreds of hours striving towards a goal you have established. Dedication to a personal goal is imperative to your growth and eventually your success.

Every day, there are hundreds of teams training. Thousands of players are reaching for the top to someday play professionally or perhaps even for their country. You have every opportunity to train as much as you desire. There are no excuses or obstacles other than the ones you create.

Please contact the Director of Coaching for your age group to find out the status of future training dates, times and locations.
